

WordWise

Use the clues below to identify each vocabulary term from Chapter 32. Write the words on the line, putting one letter in each blank. When you finish, the word enclosed in the diagonal lines will reveal the name of one of the groups of primates.

Clues

1. The glands in mammals that produce milk to nourish the young are ____ glands.
2. The ability to merge visual images from both eyes is called ____ vision.
3. A mammal that lays eggs
4. A muscle that pulls the bottom of the chest cavity downward during inhalation
5. Part of the cerebrum that is the center of thinking is the cerebral ____.
6. This family includes modern humans and their closest relatives
7. An external pouch in which marsupial embryos complete their development
8. Anthropoid group that is also known as the great apes and includes gibbons, orangutans, gorillas, chimpanzees, and humans
9. A tail that can coil tightly around a branch
10. Locomotion that uses only two feet
